Allah Subhanahu wa Taala has accepted and honored His slaves at different times and places and has provided them an opportunity to serve the cause of His final message, the Al-Quran, and present it to others in the way that makes it easy to learn and understand. This is an effort in the same direction to present His Book to others in the format of Color-Coding in Arabic Text with corresponding English and RomanUrdu Text translations. The purpose is not to decorate and beautify the words by coloring them.

The effort is to provide for Computers, Smart Phones, Electronic Book Readers as well as Print Media contemporary English and RomanUrdu translations of the Quran juxtaposed to the Arabic text. It is meant to aid readers whose language is not Arabic but who intend to understand Quran in Arabic. For those who can understand Urdu and Hindi, it would be very easy for them to learn and understand the Arabic as the language is rich with Quranic Arabic vocabulary. Present day Urdu and Hindi speaking communities are very well educated in English also. For all such Muslims, the Arabic-English-RomanUrdu Color Coded Quran would be an asset towards learning the Book of Allah.

Blue and red colors are alternately used for Arabic words and the corresponding English and RomanUrdu words. Green color in the English and RomanUrdu translations is used for comments or other words which are implied and not explicit in the Arabic Quran. Translators often use them to bring-out the meaning implicit in the Arabic Text.
